

# RIGHT-TO-LEFT AND END-TO-END, SYNCFUSION HAS YOU COVERED: HUNDREDS OF .NET CONTROLS WITH RTL SUPPORT

With recent additions of native right-to-left support in everything from mobile platforms like Android Jelly Bean 4.2 to publishing applications like MadCap's Flare 9.0, it's clear that software is now more audience-specific than ever. Syncfusion recognizes that your .NET applications need to maintain the same standard to grow in international markets, which is why 263 of our controls across eight platforms are compatible with languages written in RTL scripts, such as Hebrew, Arabic, and Farsi.

Platform	Control highlights	Number of controls with RTL support
Windows Forms	Chart, PivotGrid, XlsIO, DocIO, Ribbon Control Adv, HTML UI	84
WPF	PDF, PDF Viewer, Spark Line, AutoComplete, Range Slider, XlsIO, DocIO	51
Silverlight	BI Client, BI Grid, XlsIO, DocIO, Gantt, DateTime, Tab	47
ASP.NET	BI Grid, Chart, XlsIO, DocIO, Menu, Grid Grouping	22
ASP.NET MVC	XlsIO, DocIO, PDF Viewer, TreeView	9
Windows Phone	ToolTip, Color Picker, Carousel, Busy Indicator, Bullet Graph	25
Mobile MVC	AutoComplete	1
WinRT	Bullet Graph, Chart, XlsIO, DocIO, Radial Menu, Color Palette	24
